Subject: Fw: Media Advisory for Farmington?

FYI

We will very likely have to send a media advisory in the morning about the Admin's press event in Farmington tomorrow.

David's drafting and it will need quick review once we get it.

We likely won't do press call tomorrow because of the availability.

Please be sure to get a recording tomorrow of the admin

Ok, I think we'll want to send in the AM, so I'm thinking 7 AM MT and that should be enough time for reporters to get there.

Hi Dean,

A representative for Ben Ray Lujan mentioned that Administrator McCarthy would be in Farmington tonight and that we might be able to get a brief interview with her. He was short on details, however. Is there any chance of that and can you verify she will be here this evening?

Thanks

Chris

FOR IMMEDIATE RELEASE
August 12, 2015

Statement, Photos & Audio from EPA Administrator in Durango,
CO

Today, EPA Administrator Gina McCarthy visited Durango, CO to inspect response efforts relating to the release of waste water from Gold King mine, and meet with state, local and tribal officials and community members. Tomorrow, Administrator McCarthy will visit the response efforts in Farmington, NM. More details about the visit will be released as they become available.

While in Durango, Administrator McCarthy attended a briefing at the Unified EPA Area Command where she discussed promising

new data from August 7th, 8th, and 9th that is showing water quality levels in the Animas River near Durango similar to pre-event conditions. EPA is continuing to work with local community officials tasked with making decisions about public health. Later this afternoon EPA scientists will be meeting with those officials to discuss the new data and any decisions moving forward.

Photos: Photos from EPA Administrator Gina McCarthy's trip to Durango, CO to inspect response efforts relating to the release of waste water from Gold King mine, and meet with state, local and tribal officials and community members.

Audio: Audio from EPA Administrator Gina McCarthy's remarks and press conference at the Unified EPA Area Command in Durango, CO, on response efforts relating to the release of waste water from Gold King Mine.

Following the briefing, the Administrator held a press briefing at the Unified EPA Area Command in Durango. The following remarks can be attributed to EPA Administrator Gina McCarthy:

No agency could be more upset about the incident happening, and more dedicated in doing our job to get this right. We couldn't be more sorry. Our mission is to protect human health and the environment. We will hold ourselves to a higher standard than anyone else.

I want to assure the general public as well as the leaders in the states, the counties and the tribal leaders, that we are working hand in hand with our partners to expedite this review, to expedite some return to normalcy in terms of using this river.

The river is returning to pre-event conditions. This is very good news, but we will be working with our partners so they have a chance to review this data thoroughly and have a chance to talk through this data in terms of what it means to their decisions moving forward. We are going to let this high quality and reliable science be our guide.

From this point on, the data will continue to come out. And that's what's going to influence decisions on what should happen in this river and in the affected counties.
